

Meta title IntelliQIT Best DevOps and AWS Training Institute in Hyderabad | Best AWS and DevOps Aspirants

Meta description

DevOps Training Hyderabad – Master DevOps with expert-led training in Hyderabad, designed for beginners and professionals aiming to enhance their IT careers. Our program covers core tools and practices, including CI/CD pipelines, Docker, Kubernetes, Jenkins, Git, Ansible, AWS, and cloud deployment strategies. With hands-on, real-time projects and industry-aligned curriculum, you'll gain practical experience that employer's value. Flexible batch timings, personalized mentorship, and 100% placement support ensure a smooth transition from learning to employment. Whether you're a student, fresher, or working professional, our DevOps training in Hyderabad equips you with the skills to thrive in today's fast-paced technology landscape.

AWS Certification Course – Our AWS certification course is designed to help you master Amazon Web Services and prepare for globally recognized AWS exams. Covering core services like EC2, S3, RDS, Lambda, VPC, CloudFormation, and IAM, the program blends theory with real-time, hands-on labs. You'll learn cloud architecture, deployment, and security best practices while working on live projects. Whether you aim to become a Solutions Architect, DevOps Engineer, or Cloud Practitioner, our course provides in-depth knowledge, flexible schedules, and placement support. Ideal for students, IT professionals, and career changers, this AWS training ensures you're job-ready in today's cloud-driven industry.

Azure DevOps Training – Our Azure DevOps training equips you with the skills to plan, develop, test, and deploy applications using Microsoft's powerful DevOps tools and services. The course covers Azure Repos, Pipelines, Boards, Artifacts, Test Plans, CI/CD automation, and integration with cloud platforms. With hands-on, real-world projects, you'll gain practical experience in source control, continuous delivery, and agile project management. Designed for developers, IT professionals, and DevOps engineers, the training includes flexible schedules, expert mentorship, and placement assistance. Whether you're up skilling or starting a career in DevOps, our Azure DevOps course ensures you become industry-ready with Microsoft-certified expertise.

Real-World IT Projects - IntelliQIT – At IntelliQIT, we believe in learning by doing. Our DevOps and AWS training programs integrate real-world IT projects that simulate industry environments, allowing students to apply concepts in practical scenarios. These projects cover CI/CD pipelines, cloud deployment, infrastructure automation, and application monitoring, using tools like Jenkins, Docker, Kubernetes, AWS, and Azure DevOps. By working on live case studies, learners gain problem-solving skills, teamwork experience, and the confidence to handle real client requirements. This hands-on approach bridges the gap between theory and practice, making IntelliQIT the **best DevOps & AWS training institute in Hyderabad**.

Placement-Oriented IT Training - IntelliQIT - IntelliQIT offers specialized, placement-oriented IT training designed to make students job-ready from day one. Our programs in DevOps, AWS, Azure DevOps, Python, and other in-demand technologies combine expert-led sessions, real-world projects, and industry-aligned curriculum. We provide resume-building guidance, mock interviews, aptitude preparation, and soft skills training to enhance employability. With strong corporate connections and a proven track record, IntelliQIT ensures students gain both technical expertise and the confidence to succeed in interviews. Our placement support continues until candidates secure their desired role, making IntelliQIT a trusted choice for career-focused IT training in Hyderabad.
